FREE E-GUIDE

Move in 8 Weeks

A calm countdown guide + planner for your next move

Week-by-week declutter, packing, utilities, address changes (official links only), moving day, and your first 30 days — paired with a live spreadsheet planner.

> Important: This is not legal advice on leases, deposits, or contracts. Not tax advice. Not financial advice. Use it as an organizational system only.

Free edition

English · Global (US / UK / CA / AU appendices)

Before you start

This is not legal advice on leases, deposits, landlord/tenant rights, contracts, or notice periods. It is not tax advice and not financial advice. Budget figures you track are your private notes only — not recommendations. Country appendices list official government or postal links only; we do not paraphrase those rules. Sample names and numbers are fictional. No brand endorsements.

AI disclosure: This guide was made with AI tools and checked by our automated review process before publishing. No human expert has reviewed it. Interior diagrams are original code-drawn graphics.

Sample chapter: 1. Why an 8-week countdown works

(Full guide + planner — free download)

Not legal / tax advice · Official links only in appendices

1. Why an 8-week countdown works

Moves fail quietly: a utility left on, a box with no label, a key handoff never written down. An eight-week countdown turns a vague date into finishable weekly tasks. You do not need a perfect plan — you need a visible next action every week.

Weeks relative to move day (0) then first 30 days

Relative weeks from move day.

This guide pairs with a spreadsheet planner: timeline countdown from your move date, room inventory, box log, utilities/address checklist, and a budget sheet that only totals numbers you enter.

> Reminder: We will not tell you whether to break a lease, how much deposit you should get back, or what you can deduct on taxes. For those questions, use qualified local advice and official government sites.

What you will finish by move day

- A dated task list keyed to your move date
- Every box labeled and logged
- A utilities/address checklist with confirmation fields
- A personal cost log (not a recommended budget)
- A first-week unpack plan for sleep, cooking, and work basics

> This is a free sample chapter. The full guide continues with the week-by-week countdown, packing habits, utilities process, budget tracking (no advice), official country links, and the free companion planner (download link on the disclaimer page and in chapter 9).
